Dear Mr. Corneliu Dorin,

I am writing to apply for the position of a University professor to teach Advanced Algorithm Programming, as seen on the official University website less than a week ago.

I have recently finished my Ph.D. in Advanced Computer Science, and I'm ready to use my skills to help others. I am extremely interested in this position as I enjoy working with people and have previous experience with teaching Algorithms to beginners by taking a part-time job as a teacher assistant at this University.

I am aware that there are a lot of candidates for this position, but as you can check, I was the best student in my class with an average GPA of 4.9 out of 5.

Thank you for considering my application. I would be grateful for the opportunity to discuss the position further.

Yours truthfully,

Darius Buhai
