

# Description of your place

In this essay, I will briefly describe my place, which is a regular-size house near the mountains.

At a first glance, aside from its cubic shape, my house is quite regular, with 2 stores and not more than 100 square meters of surface.

On the first floor, there are 3 rooms, including a kitchen a living room and a storage room. There are 3 ways to enter the house, including from both sides and the front. In the main hall, there is a stairway that leads to the 2nd floor. The second floor includes 3 bedrooms, 2 bathrooms, and a nice view of the sky from the skylight which is installed in the hallway.

Outside the house, there is a small well-kept garden with perfectly cut grass and a pathway that connects the house with the main road. The fence includes 2 automated sliding doors, one for the car and the other for people. The painting of the house imitates the one used for the fence, which is a light gray color.

In conclusion, a welcoming house is always nice to come to, especially if it's located near the mountains and away from any noise.
